Exos — Commission-Only SSLC Strategy: Document Rewrite Change Log (2026-10-06)

Strategy (CEO, 2026-10-06): the option to acquire the balance of SSLC has expired. Exos earns a 15% commission on SSLC tank hardware it sells, at SSLC's own price, and on SSLC sales to Exos (effective rebate); keeps 18% passive equity; Sales Commission Agreement in drafting. Figures: drafts/_rofr_rewrite_figures.json (management-prepared). All new files are in drafts/; originals untouched; nothing sent or committed.

Jon decisions: (1) approve proposed Figures of Record (Y5 revenue becomes ~$103.6M base vs the prior ~$121.6M conservative case; these may not be like-for-like); (2) withdraw/supersede the SSLC ROFR-reinstatement e-sign package; (3) whether external docs may cite the 15% terms before the agreement is signed; (4) 409A refresh; (5) the SSLC board-seat/"financial control" claim was removed from the deck as inconsistent with passive equity — confirm; (6) business plan still shows FY2025 actuals from Form 1120 ($1.49M) vs the Figures of Record ($1.55M) — this was not changed.
