Fly Your Idea to Space.
Bring It Back.
Imagine What's Next.

The Possibilities are Endless

Up to 135 kg

Send your equipment, project, experiment, or other items on a reusable rocket. **It's your space. Use it your way.**

Minutes in Microgravity

Experience about **2.5** minutes of microgravity at 100–110 km above Earth. **Short time → Big Impact.**

Fly It, Get It Back

Your items are recovered and returned so you can analyze, learn, and fly again

Who Flies?

Dreamers, doers, and problem-solvers across industries.

If you have an idea –
YOU BELONG HERE.

- Government & Defense
- Sensors, Avionics & Components
- Universities & Researchers
- In Space & Orbital Startups
- STEM, Creators & Personal
