DIU Company Interest Intake — Fill Sheet (for John to review & submit)

Prepared by Exo 2026-09-30 · MC task #2488 (BD-032 DIU HyCAT) · Nothing has been submitted. ~3 minutes to complete.

Form: https://www.diu.mil/work-with-us/company-interest

Tell us about yourself

Salutation	Mr.
First Name *	John
Last Name *	Quinn
Email *	jquinn@exosaero.com

Tell us about your company

Organization / Company Name *	Exos Aerospace Systems & Technologies, Inc.
Company Website *	https://www.exosaero.com
Street Address *	299 FM 1903
Unique Entity ID	CK24BPZGF854
Country *	United States
State / Region *	Texas
City *	Greenville
Postal Code *	75402
Subsidiary of another company?	No
DIU portfolio (closest fit) *	**10x** — "speed and radical cost reduction, 10x faster and 10x cheaper." Why: DIU's new portfolio list (Autonomous Warfare / Kill Web / 10x / AI / Bridge) no longer shows a hypersonics or "Emerging Technology" option. Low-cost, high-cadence reusable flight test is the 10x value case. Alternate: Kill Web (space architecture), weaker fit.
TRL *	**TRL 7** Why: suborbital flight-proven lineage (SARGE, 4 missions since 2018); BLK3 is FAA-licensed but not yet flown. TRL 8–9 would overclaim BLK3. Your call if you want TRL 6.

Why you are reaching out (300 characters max — this text is 277)

```
FAA-licensed reusable suborbital launch provider flying since 2018. BLK3
offers low-cost, high-cadence, recoverable flight test of
hypersonic/missile-defense subsystems - a second HyCAT test provider.
Please notify us of the next HyCAT CSO; seeking intro to the portfolio
lead.
```

Email preferences & uploads

Quarterly Newsletter	☑ leave checked
New Solicitation Notifications	☑ **leave checked** (this is the point of the form)
Pitch deck upload (PDF/PPT/Word, ≤5 MB)	Exos_BLK3_DIU_HyCAT_CapabilityStatement_2026-09-22.pdf (143 KB, attached to this email)
Product demo video (YouTube watch URL only)	Leave blank, or paste a specific BLK3/SARGE flight video URL: _____ The form rejects a channel link; it needs a single youtube.com/watch?v=… URL.

Before you click Submit

• The capability statement is marked "Proprietary — Unclassified" with an ITAR/EAR screening-only note. It contains no technical data, so it is fine as a leave-behind.
• DIU notices go to jquinn@exosaero.com. The new watcher also checks diu.mil + SAM.gov 3×/day and DMs you on any HyCAT/hypersonic-test opening.
• Current DIU openings (LC-ISR, 2× CLASS ACT C-UAS maritime) are not HyCAT fits. CSO pathway = 0 open.
