Exos Aerospace — Expanding to Japan

A Partnership & Investment Opportunity — Exos Aerospace Japan (K.K.)

With appreciation to Innovation Dojo — Black Belt Venture Studio · 8 October 2026
Toshi Kumazawa (Japan BD) · John Quinn (Co-founder & CEO)

v6 — John's inputs locked 27 Sep 2026; Toshi finalizes Japanese / keigo

PROVEN · PROFITABLE · REUSABLE

Who we are

3

of only 3 U.S. companies FAA-licensed for reusable launch operations

alongside SpaceX and Blue Origin

25+ yrs

hands-on reusable-vehicle heritage

predecessor: Armadillo Aerospace

$1.49M

2025 revenue — profitable: EBITDA $254K (17% margin)

FY2025, accrual basis, unaudited

A real operating company with flight heritage — not a concept.

WHAT SETS US APART

Proven, differentiated technology

BLK3 reusable vehicle

Suborbital launch vehicle: out-of-autoclave carbon composite, low parts count — recovered and reflown.

TRL-9 Type-5 cryo tanks

Linerless composite cryogenic tanks (affiliate Scorpius / SSLC) — lighter and more robust than metal.

Proven on the Moon

Scorpius Type-5 tanks flew as fuel & LOX tanks aboard Intuitive Machines' Odysseus (2024) and Athena landers.

BUILT IN JAPAN, TOGETHER WITH JAPAN

Our commitment to Japan

Exos Aerospace Japan (K.K.)

A local company, office, and team — opening in 2026.

HOSPO wet-lease flights

BLK3 reusable suborbital flight services at Hokkaido Spaceport, with Exos as licensed operator.

Serve industry & universities

BLK3 verification / flight-test platform, reusable engines, and SSLC Type-5 cryo tanks.

Consulting & collaboration

Long-term partnership — building space capability in Japan, together with Japan.

SLIDE 5 · STRUCTURED ROUND · RETURNS · EXIT

The investment opportunity

JAPAN ROUND — VIA EXOS U.S.

¥790M

≈ US$5.0M target (at ~¥157 / US$)

Invest through the Exos U.S. offering vehicle; proceeds fund the Japan K.K. build-out.

Exos Aerospace Japan K.K. is a wholly-owned subsidiary of Exos U.S.

USE OF FUNDS

- Stand up Japan operations
- Secure a wet-lease BLK3 for HOSPO
- Open the Japan office (2026)
- Build the local team

PATH TO RETURNS — GROW, THEN EXIT

ROUND (now)

Fund Japan stand-up + first wet-lease flights

SCALE

Recurring revenue: wet-lease flights · Type-5 tank & engine sales · verification & consulting

EXIT

Liquidity through an Exos U.S. event: public listing or acquisition. Horizon ~3+ yrs.

ALSO ON THE TABLE — non-dilutive layers (alongside equity, per IDJ)

- Payload pre-sales — reserve BLK3 flight capacity
- Crowdfunding — community & fan participation
- Staged equity rounds — realistic financing

This presentation is not an offer to sell or a solicitation of an offer to buy securities. Any offering will be made only through definitive offering documents to eligible investors.

REAL SIGNAL, ON THE GROUND

Traction & the path forward

DEMAND

LOI + inbound inquiry

Letter of intent for a fuel-tank order from a Japanese space-development company; an engine-specification inquiry as well.

PARTNER

HOSPO discussions underway

Collaboration talks in progress with Hokkaido Spaceport (HOSPO / Space Cotan).

IN-PERSON

CEO in Japan — October 2026

John Quinn will meet HOSPO, the LOI client, other space-development companies, and prospective investors.

LOCALIZE

JP production partners

Seeking Japanese technical partners for licensed production of TRL-9 Type-5 tanks in Japan. BLK3-for-Japan production commences upon international approvals (incl. U.S. export), with potential reallocation of U.S. BLK3 assets to match the speed of those approvals.

Thank you

- We are honored to explore this partnership with the Japanese space community
- Reusable space capability and lunar-proven tank technology — built in Japan, together with Japan
- We warmly invite investors and technical partners to build it with us — office opening 2026
- Contact: Toshi Kumazawa · toshihisa@exosaero.com · John Quinn, Co-founder & CEO
